# Mines and Mining Stocks

Manager of "Broken Compressor" and "No Ore" Fame Tenders Resignation.

in the board, will be the next general manager of the company.

It is the belief at camp that Deil Roberts, superintendent of the mine, will not be disturbed in his position. It was the talk in brokerage circles here during the afternoon that /Mr. Holdaway was no longer a shareholder in the company and that, if he was, it was only to the extent of a few shares, comparatively speaking. speaking.

### COPPER STOCKS IN BOSTON AND NEW YORK

Following is the daily market comment of Paine, Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, by James A. Pollock & Co., and from which it is secured for use in this department of The Herald.

Boston, Sept. 11.—Sentiment was bearish all day and rumors were rife that more industrial companies, especialy Railway Steel Spring and Distillers, would pass their dividends. The coppers were weak in sympathy. However, we see more shorts selling than real liquidation and believe good profits will be made by buying on any weakness tomorrow. buying on any weakness tomorrow. It will be a trader's market for some time to come and such breaks as these should tittle Bell ... Little Bell ... Little Chief

### MINING STOCK EXCHANGE. D Colorado Goes Down on the Dividend BLAUN

-Iron Blossom Sags. While the market is admittedly weak, it was hardly expected that Colorado would drop in the teeth of its \$120,000 dividend announcement, which came Thursday afternoon, but that is what it did. It went off just about the price of the dividend, or 12½c a share. A crimp was also put into Iron Blossom, which sold down to \$1.95. This move in the stock has been expected by many who have failed to see what justified a price of considerably more than \$2,000,000 for the property under its present state of development and earning capacity.

Unofficial Report Says Ore Carrying \$70 in Gold Is Opened in Deep Level.

At a meeting of the directors of the Sioux Consolidated company, held in Provo yesterday, the resignation of N. A. Holdaway as director and general manager was accepted. Mr. Holdaway will surrender charge of the property on the first of the coming month, and the belief sexpressed that Colonel C. E. Loose, who has been chosen to fill the vacancy in the board, will be the next general manager of the company.

Tenders Resignation.

Judging from the way the market has been acting for several days, the conclusion is inevitable that there is going to be a leveling of prices in several of the higher priced issues. The way Colorado is moving shows that market patrons are going to demand something more than a prospect for \$1,000,000 to \$2,000,000.

During the two regular and open board alls a total of 90,468 shares of stock, with a sciling value of \$72,341.79, changed hands following is the list of final quotations and record of sales made:

Forenoon. If Afternoon.

The short of the directors of the black Jack Consolidating declared that for several days past one of the delepses level, or one of the deepest level in the mine, has been plowing its way through ore that strength shown in the shares of the Black Jack Consolidation is inevitable that there is going to be a leveling of prices in several of the shares of the Black Jack Consolidation is moving shows that market patrons are going to demand something more than a prospect for \$1,000,000 to \$2,000,000.

During the two regular and open board all a total of 90,468 shares of stock, with a sciling value of \$72,341.79, changed hands. Following is the list of final quotations and record of sales made:

Forenoon. If Afternoon.

It is known also that several good sized orders for the stock have come from Provo and that the orders have been to pick up the shares without exciting the market, which is evident from the manner in which the buying has been going on. When the orders were first received holders were jumping at the advance in price of a few cents a share, and thousands of shares were gathered in. When the matter was allowed to drop, apparently, and it was only occasionally that anybody would break in and take the offerings, the market was allowed to run along easily and permit the filling of orders just as occasion made it possible. Black Jack is yet only 63c to 65c a share, and if the strike has been made as reported, and if a big body of such ore is share, and if the strike has been made as reported, and if a big body of such ore is really being developed, there is going to be something doing in the shares before long. If Sioux Consolidated, Iron Blossom and some of the other high class prospects of the Tintic camp are worth what they are selling for, Black Jack, with big and rich ore bodies at depth, cannot fail to make the fur fly before long. It is worth watching at any rate according s worth watching, at any rate, according to the exchange members who ought to now what they are talking about and

Lower Mammoth, 200 at 76c; 100 at 75c; MASCOTTE TUNNEL IS DRAINING OHIO SHAFT

Thomas Weir, local director of the Ohio Copper company, stated yesterday that the work of driving the Mascotte tunnel ahead was progressing splendidly, and the best part of it was that the water was being drained from the shaft workings, the bottom of which are more than 600 feet above the level of the tunnel. So rapidly is the water running out of the shaft workings that it is expected sinking can be resumed in the shaft within a few days.

be resumed in the shaft within a few days.

This will be good news to everybody concerned in the Ohio Copper company, as it means that it will not be necessary to pump the shaft out and keep the pumps running to permit of sinking operations. The affairs of the company are understood to be working around into first-class shape at a good clip, and the future looks rosier every day.

### MOSCOW-BONANZA DIRECTORS HOLD MEET

Yesterday afternoon the board of directors of the new Moscow-Bonanza Mining company held its first formal meeting and mapped out a plan of action for the future. It was learned after the meeting that a good big block of the treasury stock had been opened to subscription at 25c a share, and that its quick absorption

25c a share, and that its quick absorption was assured.

As previously stated in this department the company's property adjoins the well-known and much-discussed Eurning Moscow mine, belonging to Matthew Cullen and Senator Joseph L. Rawlins, in the Star district, Beaver county. The extensive development in the latter property has been done close to the lines of the property owned by the Moscow-Bonanza company, and has largely proven the value of the latter, a fact greatly appreciated by the management of the new company. The Moscow-Bonanza company owns the Boston, Uranus, Buranus and Orango

claims, two of which are old-time patented properties. The Boston claim is one of the old-time producers of Beaver county, and Manager Dan Ferguson, who resurrected the Burning Moscow for Matthew Cullen and Senator Rawlins, says the productiveness of the new company's territory is already assured through the work of the neighboring mine. He will begin operations at the new property in a few days, or just as soon as he can shape things up for it. WEEK'S OUTPUT OF MINES

OF THE TINTIC DISTRICT

(Special to The Herald.) Eureka, Sept. 11.—Labor day festivities and the general suspension of operationate the mines made the output of the district for the week ending tonight comparatively light. Instead of fifty-seven carloads, as in the previous week, only thirty-four carloads of ore were delivered at the Knight smelter, twenty of them being twenty-ton cars, the rest of the deliveries and shipments from the district being represented by the usual fifty-ton cars. The small cars are market with an asterisk in both of the accompanying tables:

Smelter—M. Herman.

Tonopah—T. A. Oldfather.

The same termination of the east yesterday morning. In order to beat the railroad and Pullman companies he hitched up his Rambler runabout, loaded in his duds and started out to make the trip to Chicago by easy stages, his route flanking the Union Pacific railroad to Omaha, and chauffeur's choice from there on. He may decide to drive the car through to New York but that will be a matter for circumstances
